

## SPECIFICATION

Engine	Honda Petrol
Power	6.5Hp
Maximum Blade Capacity	14"/350mm
Maximum Cutting Depth	125mm
Weight	76kg

## PRODUCT INFORMATION

The C51 is packed with features, benefits and refinements you would expect from a Clipper floor saw, yet so uncommon with a floor saw in the same lightweight class, including:

- Cutting on right hand side only
- Winding handle height adjustment
- Adjustable handle height, permits the optimum upright operator working position to reduce back fatigue
- Extremely compact, space saving design, permitting easy storage and transportation - additionally making the C51 ideal for surface repair jobs where available working space is limited
- Removable 20L polyurethane water tank
- Three drive belt transmission
- Water tank support has 3 functions: protect the engine, mechanical lifting point and water tank support
- Large diameter, hard wearing rubber rear wheels make the C51 a very stable machine and further extends the life of the wheels
